- 7.18 Neither Party shall be liable to the other for any consequential loss or damage arising as a result, directly or indirectly, of a claim for infringement or alleged infringement of any patent or other IPR owned by a third party.
- 7.19 A Party against whom a claim is made or action brought shall promptly notify the other Party in writing if such claim or action appears to relate to an infringement, which is the subject of an indemnity or authorisation given under this Agreement by such other Party. The notification shall include particulars of the demands, damages and liabilities claimed or made of which the notifying Party has notice.
- 7.20 Subject to the provisions of Clause 7.5, the Party benefiting from the indemnity or authorisation shall allow the other Party, at its own expense, to conduct any negotiations for the settlement of the same, and any litigation that may arise therefrom and shall provide such information as the other Party may reasonably require.
- 7.21 Following a notification under Clause 7.19, the Party notified shall advise the other party in writing within 30 days whether or not it is assuming conduct of the negotiations or litigation. In that case the Party against whom a claim is made or action brought shall not make any statement which might be prejudicial to the settlement or defence of such a claim without the written consent of the other Party.
- 7.22 The Party conducting negotiations for the settlement of a claim or any related litigation shall, if requested, keep the other Party fully informed of the conduct and progress of such negotiations.
- 7.23 If at any time a claim or allegation of infringement arises in respect of copyright, database right, Design Right or breach of confidence as a result of the provision of any Supplier Deliverable by the Supplier to the Authority, the Supplier may at its own expense replace the item with an item of equivalent functionality and performance so as to avoid infringement or breach. The Parties will co-operate with one another to mitigate any claim or damage which may arise from use of third party Intellectual Property Rights.
- 7.24 The Supplier shall secure from any Sub-Contractor the prompt notification to the Authority of the information required by Clause 7.2. The Supplier is not authorised to enter into any substantive correspondence in such matter nor in any way to act on behalf of the Authority in such claim or action. Any arrangement between the Supplier and Sub-Contractor to enable the Supplier to underwrite its indemnities to the Authority under this Clause is a matter between the Supplier and the Sub-Contractor.

- 7.25 Nothing in Clause 7.2 shall be taken as an authorisation or promise of an authorisation under Section 240 of the Copyright, Designs and Patents Act 1988.

8. PRICING AND PAYMENT

Pricing

The pricing of any Response submitted by the Supplier pursuant to any Tasking Procedure shall be in accordance with the provisions of this Clause 8.

- 8.1 The Supplier shall submit pricing within their Response in the format set out in the Tasking Form. A breakdown of costs must be submitted for provision of the Services, which details the rates applicable for each role in Schedule 2 (Pricing Matrix) that is relevant to the Tasking Procedure (and any resultant Contract). The Supplier shall identify individually the costs for materials, travel, subsistence and any other costs.

Pricing – Competitive Procedure

- 8.2 The Supplier is free to submit a Firm Price based on rates of its choosing save always that those rates must not exceed those in the pricing matrix agreed as part of this Agreement. Where the Authority determines that pricing on a Firm Price basis is not appropriate it may require:
- a) the Supplier to propose an ascertained cost, with a Maximum Price Payable, using the Firm Price Hourly Rates contained in the pricing matrix; or
 - b) the Authority may require the use of a Maximum Price Target Cost [MPTC] pricing mechanism.
- 8.3 In the event that a Contract is agreed on an ascertained cost basis, pursuant to Clause 8.2(a), the Authority reserves the right to subsequently require the Supplier to provide a Firm Price at a determined point which when agreed with the Supplier will apply for the remainder of the Contract.

Pricing - Direct Award Process

- 8.4 The Supplier's Firm Price Hourly Rates as set out in the pricing matrix shall apply to any Contract awarded using the Direct Award Process for the duration of the Term. Where the Authority determines that pricing on a Firm Price basis is not appropriate, it may require:
- a) the Supplier to propose an ascertained cost, with a Maximum Price Payable, using the Firm Price Hourly Rates contained in the pricing matrix; or
 - b) the Authority may require the use of a Maximum Price Target Cost [MPTC] pricing mechanism, using the Firm Price Hourly Rates contained in the pricing matrix.
- 8.5 The Supplier's Firm Price Hourly Rates as set out in the pricing matrix shall apply to any Contract awarded using the Direct Award Process for the duration of the Term, unless the Authority specifically requires the use of a Maximum Price Target Cost [MPTC] pricing mechanism.
- 8.6 At the time of responding to a Tasking Procedure under the Direct Award Process, the Supplier can offer, or the Authority can request an offer with, lower Firm Price Hourly Rates than those detailed in the pricing matrix and (subject to mutual agreement) these rates can be utilised in any resulting Contract.

Pricing On Ascertained Costs (Competitive and Direct Award Process)

- 8.7 The ascertained costs (Maximum Price Payable) shall be agreed prior to commencement of the Contract. A cost breakdown of the Maximum Price Payable shall be submitted by the Supplier and shall be exclusive of VAT.
- 8.8 The total amount to be paid by the Authority to the Supplier under the Contract shall not, without the Approval in writing of the Authority, exceed the Maximum Price Payable stated in the approved Contract.
- 8.9 Where Parties agree that the duration and value of the Contract warrants it, progress payments will be made monthly, based on the proportion of work undertaken less a 20% retention fee, which shall be held over and included in the final payment on submission of the required information set out in Clause 8.12 below. Any request for progress payments must be set out by the Supplier in the commercial response to the Response.
- 8.10 If at any time the Supplier considers that the Contract cannot be completed within the Maximum Price Payable agreed, it shall immediately inform the Authority and provide an explanation of the circumstances. The Supplier will under no circumstances undertake any work exceeding the Maximum Price Payable unless agreed otherwise with Authority.
- 8.11 Provided that it does not exceed the Maximum Price Payable, the final price payable to the Supplier for delivery of the Services shall comprise the following elements:
- a) the actual net invoiced cost of materials properly purchased and paid for by the Supplier for incorporation in the Articles;
 - b) the actual net sums properly paid by the Supplier to its suppliers or Sub-Contractors for goods supplied or work done in connection with the Contract;
 - c) the labour costs incurred in the execution of the work under the Contract, having included (where applicable and in accordance to the pricing matrix) the percentage discount and showing the hourly rate and hours utilized.
 - d) a declaration of the profit generated as part of the final Contract price.
- 8.12 On completion of a Contract priced on the basis of ascertained costs the Supplier will provide to the Authority:
- a) a certified cost statement, showing the cost elements used to build the final Price;
 - b) where requested, an explanation of the various rates used; and
 - c) confirmation that the costs have been reasonably and properly incurred in accordance with the Contract.
- 8.13 A representative sample of cost statements may be subject to individual audit by the Authority.
- 8.14 The Authority shall pay to the Supplier the amount by which any sum payable on the basis of the prices finally fixed exceeds any sum paid on the basis of the provisional prices and the Supplier shall pay to the Authority the amount by which any sum paid on the basis of the provisional prices exceeds the sum payable on the basis of the prices finally fixed. In the event of any alteration of the provisional prices similar provisions for payment and repayment shall apply.
- 8.15 Claims for travel and subsistence included within the price for a Contract shall be submitted in accordance with the actual limits listed below which shall remain unchanged throughout the duration of the Agreement, unless the Authority agrees otherwise at the time of awarding a Contract. These limits are inclusive of VAT.
- a) The Supplier may claim up to a maximum of £100 per night for accommodation. The Supplier may claim up to a maximum of £6 for lunch and/or £20 for an evening meal. Any price in excess of these limits will require justification and Approval by the Authority.

- b) For any car journeys made in the performance of the Contract, the Supplier may claim 25 pence per mile. Claims including vehicle insurance are inadmissible. In exceptional circumstances and with the prior authorisation of the Authority, where it is deemed to be in the public interest, the Supplier may request reimbursement for short-term car hire to meet specifically the performance of the Contract.
- c) For air, sea and rail travel, if possible the Supplier shall use any benefits obtained as a direct consequence of the Supplier's performance under the Agreement (e.g. Air Miles) to offset the costs of further travel required in performance of Contract(s) placed under this Agreement.

Payment

- 8.16 Save as may be agreed for a specific Contract, the Authority shall pay the Supplier for the Services in accordance with the terms of the relevant Contract after Acceptance (as defined in the Contract and/or Tasking Form) of all Deliverables required under that Contract.
- 8.18 The Authority enters into this Agreement and each Contract hereunder on the strict understanding that the Supplier shall be responsible for the payment of all taxes lawfully due from or collectable by the Supplier, including but not limited to its own National Insurance contributions, income taxes and VAT. The Supplier shall defend and indemnify the Authority for all and any claims which may be brought against the Authority as a result of the failure of the Supplier to pay such taxes.

Recovery of Sums Due

- 8.19 Whenever under the Agreement or any Contract any sum of money, including all appropriate and relevant tax, shall be recoverable from or payable by the Supplier, the same may be deducted from any sum, then due, or which at any time thereafter may become due, to the Supplier under the Agreement or any Contract, or under any other contract with the Authority, or with any Government Department.

Value for money

- 8.20 The Supplier acknowledges that the Authority wishes to ensure that the Services represent value for money to the taxpayer throughout the Term.

9. TERMINATION AND EXIT MANAGEMENT

Termination on Supplier's Insolvency

- 9.1 Without prejudice to any other rights or remedies of the Authority under this Agreement, the Authority shall have the right forthwith to terminate this Agreement or any Contract by written notice to the Supplier (or its trustee in bankruptcy or receiver or (if a company) liquidator or administrator) if the Supplier shall have a receiver appointed over all or a substantial part of its assets or (if an individual) be declared bankrupt or (if a company) shall go into liquidation or have an administrator appointed to manage its affairs.

- 10.2 The Authority may, at its absolute discretion, determine that a Contract requires protection in the form of guarantee. 11. AMENDMENTS TO THE AGREEMENT OR CONTRACT

- 11.1 Only the Authority shall be authorised to vary the scope, terms and conditions of the Agreement or any Contract in any way, provided that the Authority shall be free to amend the format of the Tasking Form and/or the expression of interest form. Any such changes shall be formally notified to the Supplier and no change shall be effective until mutually agreed and issued as a formal amendment and accepted by the Supplier.

12. SUPPLIER PERSONNEL AND SUPPLY CHAIN

Research Workers

- 12.1 All Research Workers engaged in support of the Agreement or any Contract shall have appropriate qualifications and competence and be in all respects acceptable to the Authority. The Authority reserves the right to reject any proposed Research Worker(s) whom it considers unsuitable for any reason. The decision of the Authority shall be final and it shall not be obliged to provide any reasons.
- 12.2 The Authority shall approve Research Workers proposed by the Supplier to work directly on any Contract and the Supplier shall notify the Authority in writing prior to the relevant Supplier Personnel starting work on a Contract.
- 12.3 A form detailing the personal particulars for each Research Worker shall be completed and submitted by the Supplier for any Contract. The appropriate Authority administrative procedures

shall need to have been completed to the satisfaction of the Authority before any additional Supplier Personnel may start work on a Contract. For the avoidance of doubt, this requirement does not apply to any Supplier Personnel who have already received adequate security clearance from the Authority.

- 12.4 The Supplier (and any Sub-Contractor) shall take all reasonable steps to avoid changes in the Research Workers once accepted by the Authority for a Contract. Where such a change is necessary, the Supplier shall obtain the prior written consent of the Authority, which shall not be unreasonably withheld.

Security Clearance

- 12.5 Supplier's Personnel may be required to have or obtain the necessary security clearance deemed applicable by the Authority for access to material designated to any security classification above OFFICIAL. When a Tasking Form, with defined assets requiring security protection, is received by the Supplier, Supplier Personnel must have or be prepared to acquire the necessary clearance or they will be deemed to be unable to participate in the Tasking Procedure at that level and may not be awarded a Contract.
- 12.6 Prior to any Contract being placed all of the Supplier's Personnel engaged on the Authority's requirement may be required to complete and return a Personal Particulars – Research Workers Form; see also Clauses 12.1 – 12.4.

Sub-Contracting and Supply Chain

- 12.8 The Supplier shall obtain the prior written consent of the Authority before entering into any Sub-Contracts in connection with the performance of a Contract. Entering into a Sub-Contract shall not relieve the Supplier of any of its obligations under the Contract.
- 12.9 The Authority's general policy is not to award Contracts under this Agreement where more than 50% of the Contract shall be sub-contracted out, measured as a % of the total offered Contract Price as stated in the Response to the Tasking Procedure. The Authority may at its discretion deviate from this policy under the following circumstances:
- a) The Authority indicates in the Tasking Form that it is willing to waive this restriction; or
 - b) The Authority may at its sole discretion accept an innovative Response where a Supplier believes its Response is enhanced by sub-contracting in excess of this policy. The Supplier shall evidence this in its Response, as a minimum describing the added value provided by the Supplier as related to the work to be performed by the proposed Sub-Contractor(s) and identifying the costs associated with managing this. Along with any innovative Response the Supplier shall also submit a conventional Response adhering to the 50% Sub-Contract cap. For the avoidance of doubt Clause 12.9(b) shall not apply when the decision to derogate from the sub-contracting limit is made by the Authority in accordance with Clause 12.9(a).
 - c) Also for the avoidance of doubt the purchase of materials, commercial off the shelf ("COTS") equipment or the hire of third party facilities shall not be included in the calculation of the 50%.

- 12.10 Where a Sub-Contract involves the design or development of defence equipment (including software), the Supplier shall ensure that the Sub-Contractor enters into a direct agreement with the Authority in the form set out in Design Rights and Patents Sub-Contractor's Agreement (Appendix to Annex S3-A).

- a) providing that where the Sub-Contractor submits an invoice to the Supplier, the Supplier will consider and verify that invoice in a timely fashion;
 - b) providing that the Supplier shall pay the Sub-Contractor any sums due under such an invoice no later than a period of 30 days from the date on which the Supplier has determined that the invoice is valid and undisputed;
 - c) providing that where the Supplier fails to comply with paragraph a) above, and there is an undue delay in considering and verifying the invoice, that the invoice shall be regarded as valid and undisputed for the purposes of paragraph b) after a reasonable time has passed; and
 - d) requiring the counterparty to that Sub-Contract to include in any Sub-Contract which it awards, provisions having the same effect as Clauses a) to d) of this Clause 12.11.
- 12.12 The relationship of the Supplier (and any individual of the Supplier engaged to provide the Services ("an Individual")) to the Authority will be that of independent Supplier, and nothing in this Agreement shall render it (nor the Individual) an employee, worker, agent or partner of the Authority and the Supplier shall not hold itself out as such and shall procure that the Individual shall not hold himself out as such.
- 12.13 This Agreement and any Contract constitutes a contract for the provision of Services and not a contract of employment and accordingly the Supplier shall be fully responsible for and shall indemnify the Authority for and in respect of any liability arising from any employment-related claim or any claim based on worker status (including reasonable costs and expenses) brought by any Individual against the Authority arising out of or in connection with the provision of the Services. The Authority may at its option satisfy such indemnity (in whole or in part) by way of deduction from payments due to the Supplier.

ANNEX A: R-CLOUD TAXONOMY

This Annex contains an overview of the R-Cloud Taxonomy (the 'Taxonomy'); its scope and operation within the Agreement.

Scope

The Taxonomy provides a broad overview of the scope of the technical requirements of the Agreement and Contracts to be placed under R-Cloud. It has been designed to focus on the S&T disciplines that underpin the much of the Authority's research and development activity, whilst also including capability areas of increased or growing priority.

The Taxonomy comprises 22 Strategic Science and Technology (S&T) Capabilities, which span the full range of the Authority's science and technology capabilities; beneath each Strategic Capability are Broad and Narrow Capabilities, which support these Strategic Capabilities.

The full taxonomy, including Statements of Requirement, detailing the scope of each Strategic Capability, is published in the R-Cloud Portal.

Operation within R-Cloud

The Taxonomy serves various functions within R-Cloud including:

- Supplier Accounts – suppliers are required to indicate at the point of application to R-Cloud, which capabilities and skills are relevant to their organisation's proposed services. If approved to join R-Cloud, it is the responsibility of Suppliers to maintain their account and ensure that the registered capabilities and skills remain relevant to their services.

When creating a Tasking Procedure in the R-Cloud Portal, the Authority will select the capabilities and skills relevant to that procedure. The R-Cloud Portal will then generate a shortlist of Suppliers to be invited, based on this selection, by matching the capabilities and skills selected for to those registered with Suppliers.
- Management Information – the Authority may utilise data from R-Cloud, including that based on the Taxonomy (e.g. number of Suppliers registered against capabilities) as a source of Management Information.

The R-Cloud Taxonomy

The Authority reserves the right to make changes to the R-Cloud Taxonomy during the term of the Agreement. Any changes will be communicated to Suppliers via the R-Cloud Portal.

 - c) a notification of the grant of any patent or like protection effective in the UK secured for an invention comprising Foreground IPR or the grant of registered design protection effective in the UK for a design generated in the performance of work under the Contract, which gives identification details for the rights granted.
- 20 All notifications under paragraph 19, together with the accompanying material as required, shall be provided by the Contractor within 45 Business Days of receipt by him of the corresponding certificate of filing or grant, save as provided in paragraph 21 below.

- 26 When a patent application for an invention to which paragraph 24 applies is made at the UK Patent Office, the Contractor shall ensure that it is filed directly with the Security Section. When making such a patent application the Contractor shall comply with the following:

- and this shall include the right to grant a licence, with the right to sub-license, to another government, government agency, intergovernmental organisation or its agency under the terms of a Collaborative Defence Agreement to permit use of the invention or registered design in any joint activity with the Authority under the Collaborative Defence Agreement (including the provision to all parties to that Agreement of any defence equipment which is produced by the joint activity).
- 31 The Authority shall inform the Contractor when the Authority exercises its rights under paragraph 30.

EXPLOITATION

- 32 The Contractor shall notify the Authority promptly if it is not able, or does not wish, to take responsibility for the utilisation, management and exploitation of the Foreground Technical Information or Foreground IPR so that the Authority can consider alternative options. Unless such a notification has been given, paragraphs 34 to 37 shall apply.
- 33 The responsibility for securing effective utilisation, management and exploitation of the Foreground Technical Information and Foreground IPR shall fall to the Contractor concomitant upon his ownership of these under paragraph 2 of this Annex S3-A.
- 34 The Authority shall be entitled to require the Contractor, at reasonable intervals during the Contract and for a period of five years thereafter or such other period as may be set down in the Contract, to inform it of the plans for and the extent to which the Foreground Technical Information and Foreground IPR are being exploited in both the defence market and other markets. The Authority may review from time to time the technology arising from the Contract and may require the Contractor to engage in discussions with a view to promoting commercial exploitation. The Authority may conduct this review itself, or may engage a Contractor to conduct a review on its behalf providing that this Contractor is reasonably acceptable to the Contractor and is bound by an obligation of confidence.
- 35 If the Contractor wishes to grant a licence including any provision which conflicts with a provision of this Annex S3-A, it shall inform the Authority's Director of Intellectual Property Rights giving full details of the proposed licence and the conflict of provisions. If, having regard to the territories and/or goods or services to which the licence relates, it appears to the Authority that the proposed licence is unlikely to inhibit its defence interests it will consent to the licence or consent to the grant on modified terms. No such licence may be granted unless the Authority's consent has been given.
- 36 Subject always to the Authority's existing obligations at the time of the request, the Authority will favourably consider the grant of a licence to the Contractor (with the right to sub-license) to use information provided by and belonging to the Authority as necessary to enable the Contractor to exploit Foreground Information and Foreground IPR commercially. Such a licence shall be non-exclusive and on fair and reasonable terms, taking account of all the circumstances.

- a) restrict the entitlement of either party to make use of information once it enters the public domain;
 - b) extinguish any entitlement to use information and IPR which has been acquired under any separate contract or agreement; or
 - c) override any applicable security restriction or constitute an export licence for Technical Information.
- 38 This Annex S3-A shall constitute 'an agreement to the contrary' for the purposes of Section 48(5) of the Copyright, Designs and Patents Act 1988.
- 39 The terms of this Annex S3-A shall survive the cessation of the Contract.

The Contractor shall take all necessary measures to secure that vesting. On request, the Contractor shall demonstrate to the Authority's satisfaction that, where they have sub-contracted work under the Contract, they have secured that vesting in the work performed by their sub-contractors.
- 2 The Contractor shall waive, or procure a waiver of, any moral rights in the Results.
- 3 The Authority shall determine whether any of the Results should be protected by patent or other protection. The Contractor shall assist the Authority in filing and executing documents necessary to secure that protection. The Contractor shall use all commercially reasonable endeavours to secure similar assistance from Sub-Contractors as appropriate. The costs of such patent or other protection shall be borne by the Authority.
- 4 The Contractor shall mark any copyright work comprising Results with the legend: '© Crown-owned copyright [insert the year of generation of the work]'.
- 5 Ownership of any Intellectual Property Rights generated independently of this Contract (Background IPR) shall remain unaffected by this agreement, and in particular any Contractor-owned Background IPR shall remain the property of the Contractor. Nothing in this agreement shall prevent the Contractor from using, changing, disclosing, publishing and non-exclusively licencing such Contractor-owned Background IPR, independently of the Results.

Except where, and to the extent, agreed to the contrary in writing, the Contractor shall, when delivering the Results, grant the Authority a non-exclusive, perpetual, royalty-free, irrevocable worldwide licence to any Contractor-owned Background IPR, and shall procure for the Authority the same in any 3rd party Background IPR, which is included in, delivered with, or necessary for use of, the Results, permitting the Authority to use, copy, change, disclose, publish, and authorise use and copying of such Background IPR by any person, solely for the purpose of using the Results.
- 6 Unless otherwise agreed by the Authority in writing, the Contractor shall retain a copy of the Results together with records of all work done for the purposes of the Contract for six (6) years after the completion of the Contract.
- 7 The Authority shall have the right to require the Contractor to furnish to the Authority copies of any and all of the Results and such records for so long as they are retained by the Contractor. A reasonable charge for this service based on the cost of providing it will be borne by the Authority unless already included in the price of the Contract.
- 8 The Contractor shall treat the Results as if received in confidence from the Authority and:
 - (a) shall not copy, use or disclose to a third party any of the Results without the prior written consent of the Authority, except that the Contractor may without prior consent, copy and use the Results, and disclose the Results in confidence to their officers, employees and sub-contractors, to such extent as may be necessary for the performance of the Contract or any sub-contract under it or in the exercise of any right granted pursuant to Clause 12 of this Annex; and
 - (b) shall take all reasonable precautions necessary to ensure that the Results are treated in confidence by those of their officers, employees and sub-contractors who receive them and are not further disclosed or used otherwise than for the purpose of performing work or having work performed for the Authority under the Contract or any Sub-Contract under it.
- 9 The Contractor shall ensure that their employees are aware of their arrangements for discharging the obligations at Clause 8 and take such steps as may be reasonably practical to enforce such arrangements.

- 10 The confidentiality provisions of Clause 8 shall not apply to the Results or any part thereof to the extent that the Contractor can show that they were or have become published or publicly available for use otherwise than in breach of any provision of the Contract or any other agreement between the parties.
- 11 The Contractor shall not be in breach of the confidentiality obligations contained in this Annex where it can show that any disclosure of the Results was made solely and to the extent necessary to comply with a statutory, judicial or parliamentary obligation. Where such a disclosure is made, the Contractor shall ensure that the recipient of the Results is made aware of and asked to respect its confidentiality and, wherever possible and permitted by law, shall notify the Authority as soon as practicable after becoming aware that such disclosure is required. Such disclosure shall in no way diminish the obligations of the Contractor under this Annex.
- 12 The Contractor shall be entitled to request consent from the Authority to re-use (under licence or otherwise) the Results and intellectual property rights vested in the Authority by virtue of Clause 1 for other purposes including, but not limited to, tendering for other work for the Authority or work for another UK Government department. Such consent shall be properly considered by the Authority taking into account matters such as national security and the rights of third parties.
